

## Devonshire Primary Academy Curriculum Overview

Each year group covers four topics with a Science, History or Geography focus.

English lessons are usually linked to the topics covered.

Mathematics, MFL, RE, PE and PSHE are taught as discrete subjects. Links are made to topics if applicable.

Art and Design, Music and DT are taught through the topics.

Computing is linked to the topics and ICT skills are then used throughout the curriculum. (ICT Units/E-Safety units)

Teachers and children decide on topics for the remaining half terms- to reflect the interests of the children and with a strong focus on the creative arts.
