

Dear Year 1,

We are very proud of all the learning that you have been doing at home, but it is nearly time for some of you to come back. We are really looking forward to seeing you again!

When you come back, some things will look a bit different but we don't want you to worry.

All the grown-ups in school have been working very hard to make our school feel as clean and safe as possible for you. Here is what your new classroom might look like:

When you return to school you will be able to see some of your friends again, but unfortunately not all of them, as there will be less children in your new class. You may be in a different classroom and with a different teacher but it will be a friendly face that you already know.

For the last few weeks of school you won't need to wear your uniform. Please bring a named coat if it's wet and a named hat and sun protection cream if it's hot and sunny (but you'll need to put this on yourself and it'd be best if you put this on before school).

You will have your own table in your classroom with all your own things; a pencil, crayons and books. It is important that you look after this carefully; normally, we love to see you sharing, but for a little while we will need your help as only you can use the things in your space and we won't be sharing anything. This will feel very strange as we know how kind you all are. We, like your parents, have taught you to share and be nice to your friends. For now, the kindest thing for everyone is to keep your hands really clean and to stay a safe distance apart from each other. Please still wave, smile and talk to your friends though!

Break times and lunchtimes might take place at different times than you're used to. You might not be able to sit and eat with your friends as you will be eating in your classroom.

We have all missed you and can't wait to see you back at school again!

Love from Miss Stackhouse, Miss Weszka & Mr Coldwell (all the new Year 1 staff -for the next 5 weeks!).
